WESTERN AUSTRALIA

Walking on a Dream

Western Australia is not just another State in Australia. It is one of the *greatest places on the planet*. Brimming with natural riches and world class experiences, many that you can't find anywhere else. Providing unique and authentic experiences. It's possible to experience *world class nature and wildlife, premium food and wine, world class coastlines, beaches and marine life, and friendly hospitality*. Get away from the well-known and well-trodden. Western Australia is a story of adventure, *brimming with every type of adventure* that High Value Travellers seek. Inspired by Aboriginal culture and how every part of the natural world is interconnected. The people, the animals, the plants and even the landforms are seen as interconnected bodies in constant conversation with each other. The awakening of a deeper connection with oneself, with each other and with the land upon which we walk. ***Western Australia is dreamlike. Otherworldly. It's a place of natural wonders and diversity.***

Testimonials

Fantastic tour, very knowledgeable driver and venues. We loved the intimate nature of the wine tasting and tours.

Lawrence is a gem - knowledge level high, communication clear, attitude unfailingly positive.

Loved everything about this tour. The driver was amazing, and willing to help in any way. I would recommend this bus to all my friends & family who will visit WA.
