FOOD PHILOSOPHY

After a morning exploring the valley floor and riding the Scenic Railway, Cableway and Skyway, our guests build up a mountainous appetite. Scenic World caters to all tastes and dietary requirements, including gluten-free, Halal and vegan options. We pride ourselves on serving fresh, seasonal meals made from high-quality ingredients from local suppliers where possible. Whether guests are after something light or hearty to eat, there's something for everyone. And, all meals come with a side of the best view in the Blue Mountains.

SUSTAINABILITY

Scenic World is continuing to evolve as a responsible tourism business that is focused on environmental preservation, partnerships, and local investment. As a business that is passionate about supporting the environment and community, Scenic World is minimising its carbon footprint one step at a time and doing so with pride.

Scenic World is Advanced Eco Tourism Certified.

SCENIC WORLD SUSTAINABILITY INITIATIVES:

- Cups are compostable.
- The Pulpmaster was installed in 2017 to sustainably manage organic waste. The natural composting system processes organic waste which is then redirected to farms to support their business.
- All eggs used in the kitchen are certified free range.
- Supporting the local economy by working with local, family-owned companies where possible.
- Our vegetables are sourced locally and seasonally, where possible. Most of our fruit and vegetables are sourced from NSW family-owned farms on a seasonal basis.
- All packaging, utensils, plates and cups are either biodegradable or compostable
- The Food & Beverage department's food wastage output is consistently below the industry standard of 5%. Approximately \$10 billion worth of food is wasted every year in Australia.
- Scenic World's Fish option is Hoki which is sustainably sourced (always subject to availability)
