SCUBA DIVING - IMPORTANT INFORMATION

Queensland, Australia has some of the strictest scuba diving rules in the world but also the safest scuba diving record. We have a passion at Reef Experience to show Australia's Great Barrier Reef, so please ensure your guests understand the scuba diving laws. We are regulated by the Queensland Government Code of Practice and comply with all rules, including medical, as is the law.

To avoid disappointment on your day of travel, we strongly recommend that all of our passengers complete our [Dive Medical Questionnaire](#) before booking, as some medical conditions, age and/or medications may prevent you from scuba diving.

The minimum age for introductory scuba diving is 12 years old, and 10 years old for certified junior divers. Certified junior divers are to book at adult price.

FLYING AND SCUBA DIVING

We recommended leaving a minimum of 24 hours after their last scuba dive before flying or travelling to high altitude. Guests can fly and then dive on the same day - but not dive and then fly.
