SERVICES

Kookaburra Air offers hassle free tour packages that provides a bird's eye of inaccessible beauty while allowing more time to enjoy points of interest. We offer this by combining scenic air travel with ground-based tours at each destination.

PACKAGED OR SPECIAL TOURS

Kookaburra offers standard day and extended tour packages with personalized tours available upon request.

Tours are available for groups of two to thirty passengers. Where landing areas restrict larger aircraft, a number of smaller aircraft will be used.

Kookaburra flights are tour oriented and all inclusive – rather than just a mode of transport from point A to point B.

ABOUT KOOKABURRA

Kookaburra Air is an Australian owned family business that started in Perth in 1996 providing local and remote air charter services with a focusing on developing air tours and scenic flights for the Australian tourism industry.

In 2013, a new base opened in Darwin N.T. providing clients a central location for air tours and scenic flights throughout Northern Australia to destinations such as Kakadu, Kimberley, Gulf of Carpentaria and Cape York.

All our pilots are friendly, service oriented, and have local knowledge on the areas of interest. They are flexible enough to meet the requirements of passengers while commanding a safe and professional flight.
