Skyrail Smithfield terminal is a 14km/15min drive 1-way from Palm Cove or 55km/60 min from Port Douglas.

CAIRNS & GREAT BARRIER REEF

PRODUCT OVERVIEW

Expertly guided aboard one of Billy Tea Safari’s custom 4WD vehicles, this immersive wet-tropics experience showcases the flora, fauna and diverse landscapes of the oldest continually surviving rainforest on the planet. Highlights include a scenic coastal drive, Daintree River cruise, guided rainforest walk, lunch in a beautiful rainforest setting, opportunity for an invigorating rainforest swim, free time at Cape Tribulation beach, complimentary tropical fruit ice-cream and a cable ferry crossing of the Daintree River.

DETAILED DESCRIPTION

Picking up at your accommodation in a Billy Tea Safaris custom 4WD vehicle, this full day tour travels north along the picturesque Great Barrier Reef Drive on route to the World Heritage Listed, Daintree National Park.

Enjoy light refreshments before embarking on a 1-hour Daintree River Cruise providing insight into the region’s unique flora and fauna including the estuarine crocodile, an infamous apex predator, at home amongst some of the world’s most biologically diverse mangrove habitat.

Back on land, enjoy an interpretive drive over the Alexandra Range, venturing into the heart of the oldest continually existing rainforest on earth. Join your expert local guide on an informative boardwalk tour while on the lookout for the elusive Southern Cassowary and prehistoric Boyd’s Rainforest Dragon.

Discover ancient ferns, palms and enormous woody vines, while a myriad of epiphytes, climbing plants and orchids cling to the giant limbs and trunks of emergent rainforest trees. An abundance of shade loving mosses, invertebrates and nutrient recycling fungi litter the rainforest floor, which combined with a range of endemic birds, reptiles, rainforest macropods and more, weave an intricate web of life that has shaped this fascinating environment over its 180-million-year history.

Lunch, including tea/coffee and a seasonal fruit platter is served in a beautiful rainforest setting with opportunity for an invigorating rainforest swim including chance sightings of jungle perch, saw-shelled turtles and the dazzling electric-blue Ulysses butterfly.

For over 50,000 years, Cape Tribulation beach (Kalkajaka) has held immense cultural significance for the local Kuku Yalanji Aboriginal people, while providing modern day visitors the unique opportunity to witness the only place on earth where two World Heritage Listed sites converge - where rainforest meets the reef.

The day concludes with a delicious tropical fruit ice-cream made from 100% locally sourced ingredients, followed by a cable ferry crossing back over the Daintree River before returning to your accommodation late afternoon.

* Maximum group size is 57 guests utilising 3 x 19 seat vehicles.

DAINTREE & CAPE TRIBULATION

PRODUCT OVERVIEW

Discover the accessible Australian Outback and remarkable Chillagoe Caves on this unique and immersive full-day tour from Cairns.

Sample the local produce at Skybury Farms, visit the Chillagoe-Mungana Caves National Park with its remarkable limestone caves, Balancing Rock, Wullumba Aboriginal rock art, and a historically significant mining site. Meet the locals over lunch at a fair-dinkum Aussie pub and hand-feed rare and endangered Mareeba Rock Wallabies in their native habitat at Granite Gorge.

DETAILED DESCRIPTION

Picking up at your accommodation in a Billy Tea Safaris custom 4WD vehicle, discover the accessible Australian Outback on this unique and immersive full-day tour from Cairns.

Travelling inland, witness the transition from coastal rainforest clad mountains to dry-tropical woodland, mixed-use farming land and the spectacular karst landscapes of the Chillagoe-Mungana Caves National Park.

The tablelands region around Mareeba is a valuable food-bowl generating a wide variety of produce such as avocados, mangoes, limes, lychees, table grapes, sugarcane and cotton. Morning tea is served on the scenic deck at Skybury Café, Australia’s leading producers of sweet red-papaya and some outstanding Arabica coffee!

We drive on towards Chillagoe across the bed of a former inland sea, on the lookout for majestic Wedge Tailed Eagles, Kangaroos & Emus while your guide points out other distinctive flora and fauna. Small outback communities and historic mining towns contrast with modern-day wind turbines visible on the nearby Emerald Range.

On arrival at Chillagoe, join a ranger guided tour through one of the regions remarkable limestone caves, 400-million years in the making.

With torch in hand, learn about the formation of the caves impressive decorations including Stalactites, Stalagmites and brilliant sparkling crystals. This cool, dark environment is home to a range of illusive creatures, including echolocating micro-bats, white-rumped swiftlets, and the harmless spotted python whose ability to prey using heat sensing pits is perfectly adapted to life in a low light environment.

Back above ground, enjoy a photo opportunity at the extraordinary Balancing Rock before a short walk to the neighbouring Wullumba Rock Art Site providing a glimpse into more than 37,000 years of local indigenous occupation.

The Chillagoe Smelters employed over 1000 people in it’s prime, processing Copper, Lead, Silver and Gold contributing significantly to the regional economy. Ceasing operations in 1943 these eerie abandoned structures stand as a testament to the regions mining heritage.

Say g’day to the locals as we refresh with lunch and a cold drink at a fair-dinkum Aussie pub before our final stop at Granite Gorge with the opportunity to hand-feed the rare and endangered Mareeba Rock Wallabies in their natural habitat.
