Boat Tours

Nitmiluk Gorge is made up of 13 separate Gorges, sculpted from the sandstone over countless millennia by the Katherine River. You are invited to experience the beauty, history, and culture of Nitmiluk National Park.

During the tour, our knowledgeable guides will share stories and information on the landscape, history, and culture of Nitmiluk as you travel up the first 2 – 3 Gorges.

Each gorge is separated by natural rock barriers, therefore walking between the gorges is required on all tours to change boats. Walkways are man-made, however can be uneven in areas as they follow the natural contours of the bush landscape. The pathways include steps with handrails. A moderate level of mobility is required.

Boat Transfers

Nitmiluk National Park is home to many waterfalls, most of which are seasonal and rely on the annual rains to bring them into full flow. December - March are typically the wettest months in the Top End.

The Southern Rockhole is a seasonal waterfall, located towards the top of the first gorge. This Rockhole is 4km (each way) by foot, or alternatively you can catch a ferry! Ferries are available either one-way (with the option of walking one way) or return. The ferry will take you within 150m of the Rockhole, you are then required to walk the remainder of the way. The walk is not a manmade path, and is rock-hopping most of the way in. As such, a moderate level of fitness and mobility is required. Swimming is only permitted when the Rockhole has been opened by NT Parks and Wildlife.

The Jatbula Trail is an iconic walk venturing from Nitmiluk Gorge to Edith Falls, following the traditional song lines of the Jawoyn Ancestors. Once a booking has been secured for this 5-day trek, guests are required cross the river to commence the walk. The short boat ride will start your memorable journey through Jawoyn Country.
